

GRAM TARANG ADVANCED EV & BATTERY ENGINEERING ACADEMY 2026

Program: Certified Electric Vehicle (EV) Powertrain & Battery Diagnostic Specialist

Course Code: GT-EV-2026-X | Batch Year: 2026-2027

Duration: 6 Months (Full-time Residential Program with 100% Free Hostel & Mess at Jatni Mother Campus)

Eligibility Criteria: Diploma / B.Tech / ITI in Electrical, Automobile or Mechanical Engineering (Age: 18 - 28 years)

Stipend Allowance: Rs. 18,500 per month during 3-month industrial internship with Tata Motors EV and Ola Electric.

Core Technical Curriculum & Training Modules:

1. High-Voltage Electrical Safety Standards compliant with NFPA 70E & ISO 26262.
2. Lithium-ion Cell Chemistries: Comparative testing of LFP (Lithium Iron Phosphate) vs NMC (Nickel Manganese Cobalt).
3. Battery Management System (BMS): Cell balancing algorithms, State-of-Charge (SoC) estimation, CAN-bus diagnostics.
4. EV Powertrain Dynamics: Permanent Magnet Synchronous Motors (PMSM), inverter phase modulation, regenerative braking.
5. Fast DC Charging Infrastructure: Combined Charging System (CCS2) and CHAdeMO charging station protocol testing.

Placement & Career Opportunities:

Guaranteed starting CTC package of Rs. 4.8 LPA to Rs. 6.2 LPA with premier EV manufacturing partners:

Recruiters: Tata Passenger Electric Mobility, Mahindra Electric Automotives, Ather Energy, Ola Electric, and Exide Energy.
