

KNOWLEDGE BASE — GT TECHNOLOGIES: SERVICES & INDUSTRIES

Source: thegttech.com | Structured for RAG Retrieval | June 2026

[CHUNK: GTTECH_OVERVIEW]

Company Overview

Field	Details
Full Name	GramTarang Technologies Pvt. Ltd.
Brand Name	GT Technologies
Website	https://thegttech.com
Future Skills Portal	https://futureskills.thegttech.com
Focus	4th Industrial Revolution — Digital Transformation, Industry 4.0
Key Partnerships	Dassault Systemes (PLM), Amazon Web Services (Cloud), Gram Tarang (Skills)
Copyright	2025 GramTarang Technologies
Built By	DevSomeware (https://saas.devsomeware.com)

[CHUNK: GTTECH_TAGLINE_MISSION]

Tagline & Mission

Tagline: Empowering Industry Transformation

Mission: Leading the 4th industrial revolution with cutting-edge solutions in AR/VR, Robotics, 3D Printing, Automation, and AI. Digitizing organizations through premium technology partnerships including Dassault Systemes and industry leaders.

[CHUNK: GTTECH_SERVICES]

Core Service Areas

Service	Description
Design & Development	End-to-end product design and development using advanced CAD/CAE/CAM tools and Dassault Syst
Product Innovation	Supporting clients in creating innovative products through cutting-edge engineering, rapid prototyping,
Centre of Excellence	Establishing Industry 4.0 Centres of Excellence (CoE) within client organizations to drive continuous in
Skill Development	High-end technical skill development in AR/VR, Robotics, CNC, CAD/CAM, and other advanced manu
Solution Implementation	End-to-end implementation of digital manufacturing, automation, and AI solutions tailored to client requ
Engineering Support	Ongoing engineering consultation, support, and maintenance for digital transformation initiatives.

[CHUNK: GTTECH_INDUSTRIES]

Industries Served

Industry	GT Technologies Solutions
Automotive	Digital design, simulation, manufacturing automation, connected vehicle solutions for OEMs and Tier-1/Tier-2 suppliers
Aerospace	Advanced PLM, structural analysis, manufacturing solutions using CATIA and SIMULIA for aerospace-grade precision
Railways	Digital twin, simulation, and maintenance optimization for rail vehicle and infrastructure manufacturers
Shipbuilding	Integrated design-to-production digital solutions for naval and commercial vessel construction
Construction & Territories	BIM integration, structural simulation, and smart infrastructure planning

Industry Equipment	Custom automation, robotics integration, smart monitoring for heavy industrial equipment manufacturers
Digital Manufacturing	Smart factory design, DELMIA-powered process planning, IoT/AI-driven production optimization
Mining	Digital monitoring, predictive maintenance, and automation for mining operations
Information Technology	AI, cloud, and software development for IT companies and digital service providers
High-End Skill Development	AR/VR, Robotics, CNC, CAD/CAM training via Future Skills platform

[CHUNK: GTTECH_TECHNOLOGY_PARTNERS]

Technology Partners

Partner	Platform/Products	Role
Dassault Systemes	3DEXPERIENCE, CATIA, SolidWorks, SIMULIA, DELMIA	CAD/CAE/CAM solutions — primary engineering platform partner
Amazon Web Services (AWS)	EC2, S3, AI/ML services, Cloud	Cloud infrastructure and AI/ML services partner
Gram Tarang (GTETS)	Skill training ecosystem	Workforce skill development and training partner

[CHUNK: GTTECH_PRODUCTS]

Product Categories

Category	Description
Software Products	Proprietary and partner software for engineering, design, simulation, and digital manufacturing
SAAP (Software as a Product)	Subscription-based software products tailored for Indian manufacturing SMEs and enterprises
Electric Vehicles (EV)	EV design, prototyping, manufacturing enablement — motor design, battery management, vehicle simulation
Furnitures	3D modelling, customization, and production automation for the furniture manufacturing industry
Garments	Digital pattern-making, virtual fitting, production optimization for apparel and textile sector

[CHUNK: GTTECH_CONSULTATION]

Consultation Services

Type	Duration	Target	Inclusions
Discovery Consultation	45 minutes	Startups & growing businesses	Technology assessment & roadmap, Industry 4.0 readiness check, cost analysis
Enterprise Consultation	60 minutes	Large enterprises	Digital transformation audit, custom enterprise architecture, ROI analysis

[CHUNK: GTTECH_FUTURE_SKILLS]

Future Skills Platform

URL: <https://futureskills.thegttech.com>

GT Technologies operates a dedicated Future Skills platform offering high-end Industry 4.0 skill development programs. Target audience: working professionals, fresh graduates, and industry employees seeking to upskill. Training areas include: Advanced CAD/CAM (CATIA, SolidWorks), Simulation (SIMULIA), Digital Manufacturing (DELMIA), AR/VR, Robotics, AI/ML, CNC Programming, 3D Printing, and Automation.
